Bioreactors for high quality

Getinge

- [Cost-Effective Biomanufacturing Of Lentiviral Vectors](#)
- This article compares fundamentals of current and upcoming lentiviral production processes and highlight areas of improvement that would allow an increase in manufacturing cost-effectiveness. Strategies discussed are production methods, cellular platforms, and bioprocessing options.
- [Guest Column](#) (1)

Bioreactors for High Quality

- Getinge offers pilot plant scale and GMP certified production scale stainless steel bioreactor systems that enable operators to produce high quality biopharmaceutical products.
