

Russell Finex

- Industry: Chocolate
  - Product: self cleaning filter
  - Value Proposition: Options allow the right particle separation with no use of consumables
  - # 1201
- 

We understand the importance of protecting the quality of your chocolate products. Whether you are producing cocoa liquor, cocoa butter, or manufacturing and processing liquid chocolate, Russell Finex will safeguard your reputation. We have different screening solutions suited for all the places you may need them including incoming ingredients, post conch, post enrober, rework or tanker loading and unloading.

Our [Self-Cleaning Russell Eco Filters](#) offer totally enclosed, automatic, high-capacity screening to keep your operators and environment safe. We also offer vibratory sieve solutions for more difficult or heavily contaminated batches.

With its versatile range the [automatic filtration equipment](#) improves product quality by removing oversize contamination from 15 microns or above. The [self-cleaning industrial filter](#) does not require filter bags or cartridges, which offers significant reductions in wasted product.
